This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that ' s helped 50,000 people better understand their organizations at [OrgDNA.com](http://OrgDNA.com) and to learn

more about Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition ( " That's me, that's my company " ) as you find out whether your organization is:

- **Passive-Aggressive** ( " everyone agrees, smiles, and nods, but nothing changes " ): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall
- **Fits-and-Starts** ( " let 1,000 flowers bloom " ): filled with smart people pulling in different directions
- **Outgrown** ( " the good old days meet a brave new world " ): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole
- **Overmanaged** ( " we're from corporate and we're here to help " ): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses
- **Just-in-Time** ( " succeeding, but by the skin of our teeth " ): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest
- **Military Precision** ( " flying in formation " ): executes brilliant strategies but usually does not deal well with events not in the playbook
- **Resilient** ( " as good as it gets " ): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels

For anyone who's ever said, " Wow, that's a great idea, but it'll never happen here " or " Whew, we pulled it off again, but I'm tired of all this sprinting, " Results provides robust, practical ideas for
