The principles of practical reasoning integrated into real world applications is the basic premise behind Professors Richard D. Rieke and Malcom O. Sillars' fourth edition of Argumentation and Critical Decision Making. The most current theories and research are combined with classic rhetoric to effectively explain the necessary functions of decision making in any given situation. With an increased emphasis on critical thinking, Rieke and Sillars help connect critical decisions with audience values and conventions. Real life examples are used to illuminate the principles of argumentation, ranging from interpersonal discussions to formalized conventions of science and law. A new discussion of language and argumentation highlights language practices that have had the most impact on effective argumentation.

This text moves from a discussion of general principles of argumentation to more specific procedures related to various debate formats. This edition contains a new glossary, a new chapter on the structure of reasoning and full texts of recent debates.

This book is a complete guide for the public debater, debate organizer coach or consultant.

Widely praised, ARGUMENTATION AND DEBATE, 13E, uses a clear, concise, and engaging presentation that makes even complex material easy for students to understand. The authors have adapted the text over the years to match changing practices in debate and teaching while preserving classical and conventional approaches to learning debate. This edition retains its rhetorical roots with a flexible tone open to a diverse array of debate styles that is appropriate in the contemporary context. It values the importance of inclusion and sensitivity to differences of culture, gender, orientation, class and other factors as they impact communicative choices and argumentation. The authors have a preference for team topic evidence-based policy debate; however, the text strives to offer viable tools for a wide range of readers interested in improving their critical thinking for reasoned decision making.
