defining as American slavery. Even as the U.S. was founded on principles of liberty, independence and freedom, slavery advocates and sympathizers positioned themselves in every aspect of American influence. Over the centuries, the characterization of early American figures, legislation and party platforms has been debated. The author seeks to clarify often unanswered--or ignored--questions about notable figures, sociopolitical movements and their positions on slavery. From early legislation like the Fugitive Slave Law of 1793 to Reconstruction and the rise of the Ku Klux Klan, this book explores some of America's most controversial moments. Spanning the first American century, it offers a detailed chronology of slavery and racism in early U.S. politics and society.

From the Pulitzer Prize-winning scholar, a timely history of the constitutional changes that built equality into the nation's foundation and how those guarantees have been shaken over time. The Declaration of Independence announced equality as an American ideal, but it took the Civil War and the subsequent adoption of three constitutional amendments to establish that ideal as American law. The Reconstruction amendments abolished slavery, guaranteed all persons due process and equal protection of the law, and equipped black men with the right to vote. They established the principle of birthright citizenship and guaranteed the privileges and immunities of all citizens. The federal government, not the states, was charged with enforcement, reversing the priority of the original Constitution and the Bill of Rights. In grafting the principle of equality onto the Constitution, these revolutionary changes marked the second founding of the United States. Eric Foner's compact, insightful history traces the arc of these pivotal amendments from their dramatic origins in pre-Civil War mass meetings of African-American "colored citizens" and in Republican party politics to their virtual nullification in the late nineteenth century. A series of momentous decisions by the Supreme Court narrowed the rights guaranteed in the amendments, while the states actively undermined them. The Jim Crow system was the result. Again today there are serious political challenges to birthright citizenship, voting rights, due process, and equal protection of the law. Like all great works of history, this one informs our understanding of the present as well as the past: knowledge and vigilance are always necessary to secure our basic rights.

Known today as "the other speaker at Gettysburg," Edward Everett had a distinguished and illustrative career at every level of American politics from the 1820s through the Civil War. In this new biography, Matthew Mason argues that Everett's extraordinarily well-documented career reveals a complex man whose shifting political opinions, especially on the topic of slavery, illuminate the nuances of Northern Unionism. In the case of Everett--who once pledged to march south to aid slaveholders in putting down slave insurrections--Mason explores just how complex the question of slavery was for most Northerners, who considered slavery within a larger context of competing priorities that alternately furthered or hindered antislavery actions. By charting Everett's changing stance toward slavery over time, Mason sheds new light on antebellum conservative politics, the complexities of slavery and its related issues for reform-minded Americans, and the ways in which secession turned into civil war. As Mason demonstrates, Everett's political and cultural efforts to preserve the Union, and the response to

his work from citizens and politicians, help us see the coming of the Civil War as a three-sided, not just two-sided, contest.

A New York Times Notable Book Selection Winner of the Mark Lynton History Prize Winner of the Anisfield-Wolf Book Award Winner of the Lionel Trilling Book Award A New York Times Critics' Best Book "Excellent... stunning."—Ta-Nehisi Coates This book tells the story of America's original sin—slavery—through politics, law, literature, and above all, through the eyes of enslaved black people who risked their lives to flee from bondage, thereby forcing the nation to confront the truth about itself. The struggle over slavery divided not only the American nation but also the hearts and minds of individual citizens faced with the timeless problem of when to submit to unjust laws and when to resist. *The War Before the War* illuminates what brought us to war with ourselves and the terrible legacies of slavery that are with us still.

Britain's rarely-examined, nineteenth-century diplomatic efforts for abolition took contemporary pre-eminence over most questions and almost sparked war with France in 1845. Kielstra examines the issue in Anglo-French relations: how conflicting moral, economic, and nationalist pressures and lobby groups affected domestic politics and high diplomacy. To preserve peace and their positions, statesmen had little margin for error as they framed policies which attacked the trade and satisfied mutually incompatible domestic opinions, in a struggle which holds lessons for current efforts to include human rights concerns in foreign policy.

Looks at the lives and politics of four of the key players in the independence and labour movements of the 19th century: Daniel O'Connell (1775-1847); Charles Stewart Parnell (1846-91); Michael Davitt (1846-1906); and James Bronterre O'Brien (1805-64).

Looks at the lives and politics of four of the key players in the independence and labour movements of the 19th century: Daniel O'Connell (1775-1847); Charles Stewart Parnell (1846-91); Michael Davitt (1846-1906); and James Bronterre O'Brien (1805-64). Volume 1 looks at the life of Daniel O'Connell.
