Offered by Columbia University. The last three or four decades
have seen a remarkable evolution in the institutions that comprise
the modern monetary system. The financial crisis of 2007-2009 is a
wakeup call that we need a similar evolution in the analytical
apparatus and theories that we use to understand that system.
Produced and sponsored by the Institute for New Economic

Economics of Money and Banking - Take This Course

Fiat money refers to objects that are money because the law decrees or orders them to be money. Today's fiat money consists of currency (the bills and coins that we use in the United States today) and deposits at banks and other depository institutions. Deposits are money because they can be converted into currency and because they are used to settle debts.
