In fact, one of the most famous structures in the world is Antoni Gaud í ' s Gothic and Art Nouveau La Sagrada Familia, a stunning Roman Catholic minor basilica in the heart of Barcelona. The Spanish ...

Gaud í 's complete works: The inspiring, visionary buildings by the "Dante of architecture" Anyone who visits Barcelona today will come across the works of Antoni Gaud í --the architect who has attracted art-lovers from all over the world to Spain. It was here, in the capital of Catalonia, that the famous master of architecture produced nearly all of his works, including villas for the well-to-do bourgeoisie, the expansive Güell Park (which today is open to the public), and the famous church designed in honour of the Holy Family--a project which was begun over 100 years ago and has yet to be completed. Antoni Gaud í 's life was full of contradictions. As a young man he joined the Catalan nationalist movement and was critical of the church; toward the end of his life he devoted himself completely to the construction of one single church. As a young man Gaud í had a liking for the glamour of social life and the looks of a dandy; in old age, on the other hand, he lived a spartan life. Gaud í never married and devoted his life entirely to his art: architecture. His works have been acclaimed as "soothing oases in a desert of functional buildings," as "precious gems in the uniform grey of rows of houses," and the master himself was acclaimed as the "Dante of architecture". This book provides a sweeping study of his entire career, presenting his complete works via texts and illustrations.

Spanish architect and designer, Antoni Gaud í (1852-1926) was an important and influential figure in the history of contemporary Spanish art. His use of colour, application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture. In his journal, Gaud í freely expressed his own feelings on art, " the colours used in architecture have to be intense, logical and fertile. " His completed works (the Casa Batll ó , 1905-1907 and the Casa Mil à , 1905-1910) and his incomplete works (the restoration of the Poblet Monastery and the altarpiece of Alella in Barcelona) illustrate the importance of this philosophy. His furniture designs were conceived with the same philosophy, as shown, for example, in his own office (1878) or the lamps in the Plaza Real in Barcelona. The Sagrada Familia (1882-1926) was a monumental project which eventually took over his

## Where To Download Gaudi Art

life (it was still incomplete at the time of his death).

Inspired by the natural beauty of his homeland of Catalonia, Antoni Gaudi became a celebrated and innovative architect through the unique structures he designed in Barcelona, having a significant impact on architecture as it was known.

Gaudi's bizarre and romantic buildings, interiors and exteriors, mosaics and public spaces, have imbued Barcelona with unique character and ensured his place in the pantheon of great architects.

Spanish architect and designer, Antoni Gaudi (1852-1926) was an important and influential figure in the history of contemporary Spanish art. His use of colour, application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture. In his journal, Gaudi freely expressed his own feelings on art, "the colours used in architecture have to be intense, logical and fertile." His completed works (the Casa Batllo, 1905-1907 and the Casa Mila, 1905-1910) and his incomplete works (the restoration of the Poblet Monastery and the Retable d'Alcella in Barcelona) illustrate the importance of this philosophy. His furniture designs were conceived with the same philosophy, as shown, for example, in his own office (1878) or the lamps in the Placa Reial in Barcelona. The Sagrada Familia (1882-1926) was a monumental project which eventually took over his life (it was still incomplete at the time of his death).
