'How to Get into Medical School in Australia' is the definitive guide on how to succeed in your application to medical school – and how to excel once there. The book provides comprehensive details of the admissions processes – both undergraduate and graduate – in an easy-to-digest, chronological format, to help you manage your application step by step. This detailed handbook includes an overview of the admissions process and the career of a doctor, characteristics sought in potential medical students and how to optimise them, study techniques for high school and undergraduate students, information on how to prepare for the medical school entry exams (UMAT and GAMSAT), the pros and cons of undergraduate and postgraduate medical school, and timelines on when to begin preparing for each step of the application process. The guide also features advice on special applications (for mature age, indigenous, rural and international students), non-traditional routes of entry, how to optimise your medical school application form (including sample resumés), and the all-important medical school interview – including how to prepare, how to dress and how to answer questions successfully on the day, as well as several pages of practice interview questions. Once you have succeeded in gaining admission, the book also offers information on what medical school is like, and advice on how to excel and enjoy it (including a list of necessary textbooks). Additionally, the guide includes advice from people who have excelled in various parts of the process: those who aced their high school leaver's exams, medical students, and junior and senior doctors. They describe their experiences and, most importantly, provide tips and guidance on how to succeed in getting into and studying at medical school. Also included are the profiles of every medical school in Australia, detailing entry requirements, contact details, fees, numbers of places for students and the focus and academic ranking of each individual school.

Getting into medical school is difficult, even for students with excellent college undergraduate records. Today, only about one-third of all students who apply to medical college are accepted—a statistic that emphasizes the vital importance of well-focused preparation on the part of medical school candidates. Getting into Medical School, now in its new twelfth edition, has gained a well-earned reputation as a time-proven source of sound advice and information on how medical school candidates can improve their chances for admission. Written by a medical doctor who is also an experienced student advisor, and updated to reflect today's medical school environment, this book emphasizes the importance of attaining a good score on the standardized MCAT (Medical College Admission Test). It also guides applicants through the arduous process of preparing the medical school application and advises them on how to make a good impression when invited for that all-important personal interview. The book concludes with a detailed medical school directory that lists up-to-date tuitions and fees, academic requirements, and application and enrollment information for more than 170 accredited medical and osteopathic colleges across the United States. Also included is a list of Web sites that provide helpful information to medical school candidates.

The only book in its field written by a medical school admissions director -- thus offering the unique perspective of an insider -- second edition.

A comprehensive look at what it takes to get into medical school, from the first day of college to the first day of medical school. This book is a step by step guide that provides information for every moment of the journey. It is a must read for any student considering going to medical school.

Take the inside track to medical school with expert advice from a specialist. Getting into medical school in Canada isn't easy—you need to stand out among a field of highly motivated and accomplished applicants. In fact, most applicants aren't successful the first time they apply. Christine Fader was an application reviewer and interviewer at a Canadian medical school for eight years and has worked as a career counsellor at Queen's University and in private practice for 20 years. After helping thousands of students through the medical-school application and interview process, she has a wealth of insight about what helps to elevate an applicant's chances and what doesn't. In *Just What the Doctor Ordered*, she shares her secrets, including: - Starting to prepare for future medical school applications while still in high school can set you up for success—and needn't be stressful. - Good grades aren't enough! Learn what experience you need—and how to describe it—to gain an edge. - Take a smart approach to the MCAT and CASPer by knowing the keys to preparation. - Make your application shine with examples and tips on the essay and short-answer sections. - Ace your interview with strategies to help you prepare for the types of questions interviewers ask. Learn from stories about other applicants, just like you! Whether you're a high school student laying the groundwork for a career in medicine or a university student working on med school applications now, Christine shows you how to maximize your chances of getting accepted to a Canadian medical school. Includes help for parents, too!
