Description. Coal mining is one of Somerset's oldest industries and eighty collieries have been sunk since the 1750's. In this book, the history and geology of the area are detailed and present day (1970s) remains at every site are described with maps to show locations and illustrations of buildings.

Somersetshire Coal Canal was built to carry coal from the Paulton and Radstock coal fields to the Kennet and Avon Canal.

Although the coal was relatively plentiful and there were markets for it across the South of England, sales had been small and prices high because the roads of the area were exceptionally poor. The SCC was built
