How God changes your brain: Breakthrough findings from a ...

Yes, it is really a two way street. Your brain changes your thoughts and your thoughts change your brain. The more you focus on a particular belief or belief system, the stronger those connections become. If you focus on God being loving and compassionate, you increase the amount of love and compassion in your brain, and your outward behaviors. If you focus on God being vengeful and hateful, you increase the amount of hate and anger in your brain, and your outward behaviors.

God and Your Brain – How He Changes It

How God Changes Your Brain may just change the way you think about God. Authors Andrew Newberg, MD, and Mark Waldman, researchers at the Center for Spirituality and the Mind at the University of Pennsylvania, have interviewed and scanned the brains of the actively faithful, including Franciscan nuns in contemplative prayer, Buddhists meditating, and Pentecostal church members after inviting the Holy Spirit to enter them.
