A more sophisticated and effective approach to discussing benefits with the customer is to sell on value. While many sales professionals frequently talk about selling on value, in our experience few of them know how to do it. Selling on value means that you need to successfully identify, quantify, and prove value to the buyer.

[How to Sell on Value for Better Sales Results](#)

You calculate today's value of each future cash flow using a discount rate, which accounts for the risk and time value of the money. The time value of money is based on the idea that £1 today is worth more than £1 tomorrow, because of its earning potential. Normally, the discount interest rate can be anything from 15 to 25 per cent.
