International Harvester / Farmall Cub Parts - Yesterday's ...

Farmall D-430 Farmall was a model name and later a brand name for tractors manufactured by the American company International Harvester (IH). The Farmall name was usually presented as McCormick-Deering Farmall and later McCormick Farmall in the evolving brand architecture of IH. Farmalls were general-purpose tractors.

America's favorite small farm tractor is retrieved from the shed and shined up for duty in this essential guide by tractor repair expert Rachel Gingell and long-time writer Kenneth Updike. The Farmall Cub Encyclopedia is a comprehensive manual for any self-starter, at-home historian, or backyard farmer. Providing step-by-step instruction for maintenance and repair from oil changes to charging system snags, as well as user tips and a buyer's checklist, the Farmall Cub Encyclopedia will give you the confidence and know-how to buy, repair, and use your very own Farmall Cub. With instructional photographs, vintage advertisements, and contemporary images, this illustrated companion is at home on both the workshop bench and the living room coffee table. The book also includes an in-depth history of all models and a vast list of implements to adapt your tractor to any need, making it both an introduction and an authoritative resource for the novice and experienced tractor owner alike.

The book enthusiasts have been waiting for! From their inception in the 1940s through the end of

production, this book discusses in detail the popular Farmall Cub, Bug Lo-Boy, and much-needed coverage of the Cub Cadet line. Amazing archival color images, advertisements, and detailed text deliver hard-to-find information on the development and design evolution of each model. Complete with implements, uses and improvements, serial number dates and codes, engine and carburetor coverage.

The Complete Book of Farmall Tractors details the complete evolution of the popular marque's iconic models. The engaging text includes series evolution, historical context, and technical details, accompanied by beautiful contemporary and historic images. In 1923, International Harvester revolutionized the tractor world by conceiving the Farmall brand, a revolutionary new line of all-purpose tractors designed for small- to medium-sized farms. Eventually offering an array of engine and equipment options, by the 1930s Farmalls were bestowed with letters as their model names, from the compact A, B, and C models to the larger H and M tractors. Fittingly known as the "Letter Series," the tractors were even given a streamlined design by famed industrial designer Raymond Loewy. Not surprisingly, they went on to become some of the most widely produced and best-selling American farm tractors of all time, to be followed beginning in 1954 with the numbered Hundred Series models. By 1947, Farmall had built over 1 million tractors. Amazingly, many are still in use today, not just as collector vehicles, but often as working farm tractors. In The Complete Book of Farmall Tractors, tractor historian Robert Pripps explores the entire range of Farmall tractors, from their inception to their final model year in 1973. Pripps includes all models, from Diesel and LPG versions to orchard tractors. Pripps also explains the evolution of Farmall lines and gives coverage to the entry-market Cub unveiled in 1947, as well as the Hundred Series, right up to the cancellation of the Farmall name in 1973. Through engaging text and fascinating photography, The Complete Book of Farmall Tractors preserves the story of the legendary pioneering machines in detail. The book's content is organized chronologically, and its detailed text shines a light on Farmall's long history and evolution. Beautiful images, both modern and historic, bring the story to life and thorough spec tables highlight key technical and performance specifications. The result is the ultimate reference to some of the most popular farm tractors in history.

This book comprehensively documents the International Harvester Company's activities from its inception to its merger with Case as Case IH and their influence in Australia and New Zealand. IHC began with a merger of harvesting machinery companies to form the International Trust, the world's biggest farm machinery enterprise at the time. Then IHC became involved with tractors to become the world's largest

tractor and full-line machinery maker, setting production records that stand to this day.

With data drawn directly from the McCormick/International Archives, this book provides collectors with all the information they'll need about IH tractors. This data book includes technical specifications, serial numbers, and codes for engines, carburetors, magnetos and options.

Restoration is one thing. Correct restoration is quite another! This extensively researched, beautifully illustrated book describes in detail the correct paint and decals for your Letter Series or McCormick-Deering tractor. Filled with factory drawings indicating decal placement, instructions for factory paint and finish of individual parts, and more for the Farmall A, B, C, H, M, and Cub; the McCormick-Deering -4, -6, and -9; and the Super Series and -TA tractors.

The developmental history of the tractors built by the dominant agricultural manufacturer of the early 20th Century, International Harvester, is dramatically told in *The Farmall Dynasty*. The book traces the evolution of the Farmall tractor from the early Titans and Moguls through to modern times. The book includes well-researched accounts of the development of the original Farmall, the Letter Series, 4100, Cub, and other legendary IHC tractors, with first-hand accounts from factory engineers describing the challenges they faced.

Ancient farmers used draft animals for plowing but the heavy work of harvesting fell to the humans, using sickle and scythe. Change came in the mid-19th century when Cyrus Hall McCormick built the mechanical harvester. Though the McCormicks used their wealth to establish art collections and universities, battle disease, and develop birth control, members of the family faced constant scrutiny and scandal. This book recounts their story as well as the history of the International Harvester Company (IHC)--a merger of the McCormick and Deering companies and the world's leader in agricultural machinery in the 1900s.
