Killing Yourself to Live: 85% of a True Story: Amazon.co ... As a longtime admirer of Chuck Klosterman’s writing on pop music and culture, it pains me to report that his latest book, Killing Yourself to Live: 85% of a True Story, is a dismal, shoddy piece of work. The author recounts his more than 6,500-mile journey across America, during which he visited the sites of famous rock star deaths and experienced philosophical changes of perspective.

Building on the national bestselling success of Sex, Drugs, and Cocoa Puffs, preeminent pop culture writer Chuck Klosterman unleashes his best book yet—the story of his cross-country tour of sites where rock stars have died and his search for love, excitement, and the meaning of death. For 6,557 miles, Chuck Klosterman thought about dying. He drove a rental car from New York to Rhode Island to Georgia to Mississippi to Iowa to Minneapolis to Fargo to Seattle, and he chased death and rock ‘n’ roll all the way. Within the span of twenty-one days, Chuck had three relationships end—one by choice, one by chance, and one by exhaustion. He snorted cocaine in a graveyard. He walked a half-mile through a bean field. A man in Dickinson, North Dakota, explained to him why we have fewer windmills than we used to. He listened to the KISS solo albums and the Rod Stewart box set. At one point, poisonous snakes became involved. The road is hard. From the Chelsea Hotel to the swampland where Lynyrd Skynyrd’s plane went down to the site where Kurt Cobain blew his head off, Chuck explored every brand of rock star demise. He wanted to know why the greatest career move any musician can make is to stop breathing...and what this means for the rest of us.

New York Times Bestselling Author Chuck Klosterman's First Novel Somewhere in North Dakota, there is a town called Owl that isn't there. Disco is over, but punk never happened. They don't have cable. They don't really have pop culture, unless you count grain prices and alcoholism. People work hard and then they die. They hate the government and impregnate teenage girls. But that's not nearly as awful as it sounds; in fact, sometimes it's perfect. Mitch Hrlicka lives in Owl. He plays high school football and worries about his weirdness, or lack thereof. Julia Rabia just moved to Owl. She gets free booze and falls in love with a self-loathing bison farmer who listens to Goats Head Soup. Horace Jones has resided in Owl for seventy-three years. He consumes a lot of coffee, thinks about his dead wife, and understands the truth. They all know each other completely, except that they've never met. Like a colder, Reagan-era version of The Last Picture Show fused with Friday Night Lights, Chuck Klosterman's Downtown Owl is the unpretentious, darkly comedic story of how it feels to exist in a community where rural mythology and violent reality are pretty much the same thing. Loaded with detail and unified by a (very real) blizzard, it's technically about certain people in a certain place at a certain time...but it's really about a problem. And the problem is this: What does it mean to be a normal person? And there is no answer. But in Downtown Owl, what matters more is how you ask the question.

The year is 1983, and Chuck Klosterman just wants to rock. But he's got problems. For one, he's in the fifth grade. For another, he lives in rural North Dakota. Worst of all, his parents aren't exactly down with the long hairstyle which rocking requires. Luckily, his brother saves the day when he brings home a bit of manna from metal heaven, SHOUT AT THE DEVIL, Motley Crue's seminal paean to hair-band excess. And so Klosterman's twisted odyssey begins, a journey spent worshipping at the heavy metal altar of Poison, Lita Ford and Guns N' Roses. In the hilarious, young-man-growing-up-with-a-soundtrack-tradition, FARGO ROCK CITY chronicles Klosterman's formative years through the lens of heavy metal, the irony-deficient genre that, for better or worse, dominated the pop charts throughout the 1980s. For readers of Dave Eggers, Lester Bangs, and Nick Hornby, Klosterman delivers all the goods: from his first dance (with a girl) and his eye-opening trip to Mandan with the debate team; to his list of 'essential' albums; and his thoughtful analysis of the similarities between Guns 'n' Roses' 'Lies' and the gospels of the New Testament.

Microdoses of the straight dope, stories so true they had to be wrapped in fiction for our own protection, from the best-selling author of But What if We're Wrong? A man flying first class discovers a puma in the lavatory. A new coach of a small-town Oklahoma high school football team installs an offense comprised of only one, very special, play. A man explains to the police why he told the employee of his local bodega that his colleague looked like the lead singer of Depeche Mode, a statement that may or may not have led to a violent crime. A college professor discusses with his friend his difficulties with the new generation of students. An obscure power pop band wrestles with its new-found fame when its song "Blizzard of Summer" becomes an anthem for white supremacists. A couple considers getting a medical procedure that will transfer the pain of childbirth from the woman to her husband. A woman interviews a hit man about killing her husband but is shocked by the method he proposes. A man is recruited to join a secret government research team investigating why coin flips are no longer exactly 50/50. A man sees a whale struck by lightning, and knows that everything about his life has to change. A lawyer grapples with the unintended side effects of a veterinarian's rabies vaccination. Fair warning: Raised in Captivity does not slot into a smooth preexisting groove. If Saul Steinberg and Italo Calvino had adopted a child from a Romanian orphanage and raised him on Gary Larsen and Thomas Bernhard, he would still be nothing like Chuck Klosterman. They might be good company, though. Funny, wise and weird in equal measure, Raised in Captivity bids fair to be one of the most original and exciting story collections in recent memory, a fever graph of our deepest unvoiced hopes, fears and preoccupations. Ceaselessly inventive, hostile to corniness in all its forms, and mean only to the things that really deserve it, it marks a cosmic leap forward for one of our most consistently interesting writers.

One-of-a-kind cultural critic and New York Times bestselling author Chuck Klosterman “offers up great facts, interesting cultural insights, and thought-provoking moral calculations in this look at our love affair with the anti-hero” (New York magazine). Chuck Klosterman, “The Ethicist” for The New York Times Magazine, has walked into the darkness. In I Wear the Black Hat, he questions the modern understanding of villainy. When we classify someone as a bad person, what are we really saying, and why are we so obsessed with saying it? How does the culture of malevolence operate? What was so Machiavellian about Machiavelli? Why don’t we see Bernhard Goetz the same way we see Batman? Who is more worthy of our vitriol—Bill Clinton or Don Henley? What was O.J. Simpson’s second-worst decision? And why is Klosterman still haunted by some kid he knew for one week in 1985? Masterfully blending cultural analysis with self-interrogation and imaginative hypotheticals, I Wear the Black Hat delivers perceptive observations on the complexity of the antihero (seemingly the only kind of hero America still creates). As the Los Angeles Times notes: “By underscoring the contradictory, often knee-jerk ways we encounter the heroes and villains of our culture, Klosterman illustrates the passionate but incomplete computations that have come to define American culture—and maybe even American morality.” I Wear the Black Hat is a rare example of serious criticism that’s instantly accessible and really, really funny.
