Louis Braille: The Boy Who Invented Books for the Blind ...

The story so far: At age 3, Louis Braille became blind after playing with a tool in his father's harness shop. Mr. Braille carved a small wooden cane for Louis to help the boy feel things that were ahead of him when he walked. When Louis was 6, a new priest came to town.

The Story of Louis Braille | Paths to Literacy

Blind from the age of three, young Louis desperately wanted to read. He realized the vast world of thought and ideas that was locked out to him because of his disability. And he was determined to find the key to this door for himself, and for all other blind persons. This story begins in the early part of the nineteenth century. Louis Braille was born in 1809, in a small village near Paris.
