"This is the remarkable story of America's personal and institutional responses to alcoholism and other addictions. It is the story of mutual aid societies: the Washingtonians, the Blue Ribbon Reform Clubs, the Ollapod Club, the United Order of Ex-Boozers, the Jacoby Club, Alcoholics Anonymous and Women for Sobriety. It is a story of addiction treatment institutions from the inebriate asylums and Keeley Institutes to Hazelden and Parkside. It is the story of evolving treatment interventions that range from water cures and mandatory sterilization to aversion therapies and methadone maintenance. William White has provided a sweeping and engaging history of one of America's most enduring problems and the profession that was birthed to respond to it" -- BACK COVER.

"Choosing Addiction Treatments: Validation of the American Society of Addiction Medicine (ASAM) Criteria focuses on the state-of-the-art in the addictions placement matching. This book examines the ASAM Patient Placement Criteria (PPC) which promises a national standard to settle the conflict between treatment programs and managed care. The research in this book has led 30 states to endorse the ASAM Criteria. This timely resource will help providers, insurers, and payers work together to provide effective treatment for people with alcohol and drug problems."

Theory and Practice of Addiction Counseling by Pamela S. Lassiter and John R. Culbreth brings together contemporary theories of addiction and helps readers connect those theories to practice using a common multicultural case study. Theories covered include motivational interviewing, moral theory, developmental theory, cognitive behavioral theories, attachment theory, and sociological theory. Each chapter focuses on a single theory, describing its basic tenets, philosophical underpinnings, key concepts, and strengths and weaknesses. Each chapter also shows how practitioners using the theory would respond to a common case study, giving readers the opportunity to compare how the different theoretical approaches are applied to client situations. A final chapter discusses approaches to relapse prevention.
