If a big hungry moose comes to visit, you might give him a muffin to make him feel at home. If you give him a muffin, he'll want some jam to go with it. When he's eaten all your muffins, he'll want to go to the store to get some more muffin mix. In this hilarious sequel to *If You Give a Mouse a Cookie*, the young host is again run ragged by a surprise guest. Young readers will delight in the comic complications that follow when a little boy entertains a gregarious moose.

Combining differentiated and focused skill specific practice with flash cards for review, Kelley Wingate's Math Practice for kindergarten is the perfect supplement for both home and school. The basic skills covered include working with whole numbers, understanding shapes and spatial relationships, and a comprehensive selection of other kindergarten math skills. This well-known series, Kelley Wingate, has been updated to align content to the Common Core State Standards. The 128-page books will provide a strong foundation of basic skills and will offer differentiated practice pages to make sure all students are well prepared to succeed in today's Common Core classroom. The books will include Common Core standards matrices, cut-apart flash card sections, and award certificates. This series is designed to engage and recognize all learners, at school or at home.

Durable cards with simple patterns required to support lesson activities. One set is included in the Manipulative Kit and the Manipulative Upgrade Kit. Also accessible online. 1 set of 11 double-sided cards.

If a hungry little traveler shows up at your house, you might want to give him a cookie. If you give him a cookie, he's going to ask for a glass of milk. He'll want to look in a mirror to make sure he doesn't have a milk mustache, and then he'll ask for a pair of scissors to give himself a trim... The consequences of giving a cookie to this energetic mouse run the young host ragged, but young readers will come away smiling at the antics that tumble like dominoes through the pages of this delightful picture book.

Because of the COVID-19 pandemic, millions of families worldwide have been thrust into schooling remotely at home. Some parents look forward to sending their kids back to school, but others have found they prefer schooling at home. They've noticed things like, "My child has learned more at home with me in the last 2 months than in the past 2 years at school!" Or, "I kind of like spending so much time with my kids and learning alongside them." Many parents are considering continuing homeschooling beyond the pandemic, and this book is here to help them make an informed decision about their children's education. Homeschooling is not about trying to reproduce a school environment at home. It's not hours and hours sitting at a desk with a parent or in front of an online class. Homeschooling is about creating an environment outside of the school structure that fosters a love of learning, creativity, family closeness, and flexibility. There is no one size that fits all in homeschooling; every family is different, and approaches homeschooling and parenting in their own unique way. In this book, 24 seasoned homeschooling families share their experiences. The authors include both religious and secular

Where To Download Printable Math Papers For Kindergarten

homeschooling parents from all walks of life. They represent a variety of homeschooling styles (from self-directed learning/unschooling to more formal approaches), abilities and disabilities, marital statuses, educational achievements, job statuses, races, and socioeconomic levels. The authors have children of all ages, from babies, preschoolers, and kindergarteners, to students in elementary school, middle school, or high school. And some have children who are now adults. They discuss what they love about homeschooling and also the challenges they've overcome. We hope that this book will inspire and encourage those who are considering homeschooling, as well as those who are already on their homeschooling journey. And we hope it will expand your ideas about the concept of education, and what's possible for yourselves and your children.
