This book interrogates the relation between film spectatorship and film theory in order to criticise some of the

Theory, in this perspective, should not be seen as a practice distinct from spectatorship but rather as an integral aspect of the spectator's gaze. Combining Jacques Rancière's emancipated spectator

Real Deceptions develops a new theory of realism through close consideration of myriad contemporary art, media, and cultural practices. Rather than focusing on transgressing deceptions which distort reality, the book argues that reality lies

within the deceptions themselves. That is to say, realism's political potential emerges not by revealing deception but precisely by staging deceptions--particularly deceptions that imperil the very categories of true and false. In lieu of perceiving deception as an obstacle to truth, it shows how deception functions as the truth's

Categories invoked in realist works, such as trompe l'oeil, illusion, hypervirtuality, and simulation help to establish how realism can be seen as moving from the creation of mere epistemological uncertainty to radical ontologically-based indeterminacy. The book cultivates this schema by considering

New Modernist Studies, while reviving and revitalizing modernist studies through lively, scholarly debate about historicity, aesthetics, politics, and genres, is struggling with important questions concerning the delineation that makes discussion fruitful and possible. This volume aims to explore and clarify the

position of the so-called 'core' of literary modernism in its seminal engagement with the Great War. In studying the years of the Great War, we find ourselves once more studying 'the giants,' about whom there is so much more to say, as well as adding hitherto marginalized writers – and a few visual artists – to the canon. The

For more than a century producers and directors of motion pictures have made decisions about how to craft them based upon assumptions about complex stylistic devices and the effects such patterns of organization have on viewers.
