Practicing is a crucial part of learning a new language. Statistical languages like R are no exception of that rule. Many of my students think the same and would love to see more exercises. Therefore, I decided to write an R exercise sheet for beginners and blog it over here. These R exercises are an . Continue Reading..

To create a tutorial, just use library (learnr) within your Rmd file to activate tutorial mode, then use the exercise = TRUE attribute to turn code chunks into exercises. Users can edit and execute the R code and see the results right within their browser. For example, here's a very simple tutorial:

[Interactive Tutorials for R](#)

This ebook provides R tutorials on statistics including hypothesis testing, linear regressions, and ANOVA. Its immediate purpose is to fulfill popular demands by users of r-tutor.com for exercise solutions and offline access. In addition, the text also provides an elementary introduction to Bayesian statistics.
