Meet the new world sensation. It's Tufti. Why is it that nothing seems to work out the way you want it to, despite the fact that you act according to your own free will? You might think that the reason why nothing is working out the way you want, is because that's just how life is. But the real reason things don't work out the way you want them to, is because you aren't acting according to your own free will - you are being directed by a script. Another reason things don't work out the way people want them to, is because they don't know how to take the right action to shape events the way they want. Rather than composing the reality of the upcoming film roll, they tend to battle with the reality they face in the current frame. Reality exists only in the here and now, and what is real is real only to the extent that it has taken place in the material world. You cannot change what has already happened. Yet when you fight with your current reality, that is exactly what you are doing, because everything that surrounds you consists of something that has already happened. If you want to change the script, you have to wake up and come alive inside the movie. Translation from the Russian language by Joanna Dobson

Artificial intelligence and machine learning are replacing human work, even in marketing, just as has happened in the past in other manufacturing sectors. Experts haven't yet understood what is happening, and they continue to recommend the strategic marketing model. If marketing was an exact science then it may be reduced, with the scientific method, systemically and severely to observable and repeatable events which have precise and recognizable causes. So from these events could be developed one or more algorithm, on the basis of which it would be possible to create an automatic software able to handle scientifically each marketing campaign. Soon humans, advisers, which work strategically and scientifically would be replaced by machines. Thanks to the web's giants today everyone can have access to the most advanced marketing technologies easily and at low prices. This is no longer sufficient, and makes no difference anymore. What makes the difference today are: feelings, stories, experiences, meditation, emotions, irrationality, creativity, intuition... in one word the Magic! Spiritual Marketing is a system that wants go beyond the limits of traditional and strategic marketing choosing ideas and concepts of spiritual origin instead of the strict and at this point ineffective present paradigm. The author analyzes how some states of the soul with spiritual nature can lift up consultation and marketing strategy at an higher level, also because of techniques that derive from coaching and neuro-linguistic programming. He describes as an holistic approach, in concrete situations, can direct to an unpredictable and extraordinary solutions and intuitions.

We had no doubt that "Transurfing" would be popular among a huge audience About the author Vadim Zeland: "I'm over forty. Before the collapse of the Soviet Union I was engaged in research in the field of quantum physics, then computer technology, and now books. I live in Russia. My nationality is Russian, or more precisely, a quarter Estonian. The rest is irrelevant, as is all the above. Regarding my own success, all I can say is that Transurfing works perfectly. I don't however want to advertise my personal life, as then it would cease to be personal. Fame turns against you, if you give in to temptation and climb up on a pedestal for all to see. Among some people, the American Indians, for example, there is a belief that if someone copies your portrait (photographs you), they steal part of your soul. Of course, this is just superstition, but there is no smoke without fire. You can distribute a product of personal creativity; but release your personality for mass circulation - never. To the question of intrigued readers: "Who are you, Vadim Zeland?," I usually just say: "Nobody." My biography can not and should not be a matter of interest, since I am not the creator of Transurfing, only a "retranslator." It is essential that we be nothing - an empty vessel, so that we do not impose our personal distortions onto this ancient Knowledge, that opens the door to a world, where the impossible becomes possible. Reality ceases to exist as something external and independent. and becomes manageable if you follow certain rules. The secret itself that is hidden only in as much as it lies on the surface, is so great that the personality of its bearer ceases to be relevant. Perhaps the guardians who passed on this knowledge to me are of genuine interest but they too prefer to remain in the wings."
