Smart Cities, Smart Villages, and Everything  
in Between Many cities, irrespective of their  
size, are harnessing new smart city  
technologies to improve the quality of life  
of their citizens. Such cities are labeled as  
smart cities. With technology widely  
available, even villages can be smart.

## **Dream of smart cities has to start from smart towns and ...**

Rural areas face a real and complex challenge, which needs to be tackled by a smart approach. The 'smart cities' concept has already borne fruit throughout Europe. It

# Access PDF Smart Villages And Smart Cities Nptel

is a logical consequence for us to now develop a 'smart village' to add to what is already working in cities.

## **EU should extend 'smart cities' to 'smart villages'**

Initially, the concept of Smart Cities (urban settlement) originated from the Internet of Things (IoT) technology, however, the use of IoT technology can be extended to the concept of Smart Villages (rural settlement) as well, improving the life of the villagers, and the communities as a whole. Yet, the rural settlements have slightly different

Why concentrate on villages? Almost 70% of the Indian population lives in villages. In recent times, more cases of farmers' suicides due to crop failure have been reported. Even after 70 years of independence, we lack a 'support and guidance system'; nor do we have professional counselling for farmers. Many of
