"I'm convinced that Howard Gardner was right when he suggested that all leaders need chances to retreat to the mountains. I hope this book gives you metaphorical mountains. I hope that *Leading Well* allows you to step back from the hurly burly of school leadership, to see far horizons, to breathe a new kind of air, and to return home with new energy and vision. And more than that, I hope the book helps you give the teachers and children in your care their own metaphorical mountains; because in the end, good leaders create leaders." -Lucy Calkins In *Leading Well: Building Schoolwide Excellence in Reading and Writing*, Lucy Calkins draws on the transformative work that she and her colleagues at the Teachers

Lucy Calkins and her colleagues at the Reading and Writing Project have helped thousands of educators design their own pathways to the Common Core. Now, with *Pathways to the Common Core*, they are ready to help you find your way. Designed for teachers, school leaders, and professional learning communities looking to navigate the gap between their current literacy practices and the ideals of the Common Core, *Pathways to the Common Core* will help you: understand what the standards say, suggest, and what they don't say; recognize the guiding principles that underpin the reading and writing standards; identify how the Common Core's infrastructure supports a spiraling K-12 literacy curriculum; and scrutinize the context in which the CCSS were written and are being unrolled. In addition to offering an analytical study of the standards, this guide will also help you and your colleagues implement the standards in ways that lift the level of teaching and learning throughout your school.

The bestselling *Scaffolding Language, Scaffolding Learning* helped tens of thousands of mainstream elementary teachers ensure that their English language learners became full members of the school community with the language and content skills they needed for success. In the highly anticipated Second Edition, Pauline Gibbons updates her classic text with a multitude of practical ideas for the classroom, supported by the latest research in the field of ELL/ESL. With clear directions and classroom tested strategies for supporting students' academic progress, Gibbons shows how the teaching of language can be integrated seamlessly with the teaching of content, and how academic achievement can be boosted without sacrificing our own vision of education to the dictates of knee-jerk accountability. Rich examples of classroom discourse illustrate exactly how the scaffolding process works, while activities to facilitate conversation and higher-level thinking put the latest research on second language learning into action. Although the Common Core and C3 Framework highlight literacy and inquiry as central goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided, along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful sections: Historical Background, Literacy Practices Students Will Learn, How to Teach This Investigation, How Might Students Respond?, Student Writing and Teacher Feedback, Lesson Plans and Materials. Book Features: Integrates literacy and
