A major voice in late twentieth-century philosophy, Alan Donagan is distinguished for his theories on the history of philosophy and the nature of morality. The Philosophical Papers of Alan Donagan, volumes 1 and 2, collect 28 of Donagan's most important and best-known essays on historical understanding and ethics from 1957 to 1991. Volume 1 includes essays on Spinoza, Descartes, Bradley, Collingwood, Russell, Moore, and Popper, as well as two previously unpublished papers on the history of philosophy as a discipline, and on Ryle and Wittgenstein's nature of philosophy. Linked by Donagan's commitment to the central importance of history for philosophy and his interest in problems of historical understanding, these essays represent the remarkable scope of Donagan's thought.

project proposal and a thesis from the first draft proposal to the final version of the thesis. As a manual, this book follows a simple approach that beginners can use without complications and many terminologies and technical terms have been translated into Arabic. The book explains the structure of a thesis and proposal including title, abstract, introduction, literature review, materials and methods, results, discussion, biography and appendix (if there is any). These parts of the thesis are often mixed up without emphasizing the purpose of each part and often without limiting oneself to the specific chapter.

Scott Brown explains to undergraduates what they need to know about writing research essays pertaining to religion. Topics include theoretical and methodological assumptions, how to locate appropriate scholarly literature, types of research essays, developing a thesis, the essentials of essay form and content, and much more.

This book on Thesis Writing for Master ' s and Ph.D. program focuses on the difficulties students encounter with regard to choosing a guide; selecting an appropriate research title considering the available resources; conducting research; and ways to overcome the hardships they face while researching, writing and preparing their dissertation for submission. Thesis writing is an essential skill that medical and other postgraduates are expected to learn during their academic career as a mandatory partial requirement in order to receive the Master ' s degree. However, at the majority of medical schools, writing a thesis is largely based on self-learning, which adds to the burden on students due to the tremendous amount of time spent learning the writing skills in addition to their exhausting clinical and academic work. Due to the difficulties faced during the early grooming years and lack of adequate guidance, acquiring writing skills continues to be a daunting task for most students. This book addresses these difficulties and deficiencies and provides comprehensive guidance, from selecting the research title to publishing in a scientific journal.

Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop ' s " The Subject Is . . . " series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.
